

AS-Interface master VBM-CTR-K20-R2

- Stand alone master with PLC functionality and RS 232 interface
- Large, graphic LCD
- RS 232 diagnosis interface
- Easy commissioning and fault diagnosis via LEDs and graphic display
- Earth fault detection
- AS-Interface noise detection

AS-Interface master RS 232 cabinet module

Function

The VBM-CTR-K20-R2 is a stand-alone master in AS-Interface specification 3.0 with IP20. The construction type is especially suited for use in a switch cabinet.

Address allocation, acceptance of the target configuration and setting the baud rate can be managed via buttons. There are 7 LEDs on the front panel, showing the current status of the AS-Interface line.

In the AS-Interface master with graphical display the commissioning of the AS-Interface circuit and the test of the connected periphery devices can be separated completely overriding bus systems and from programming. The on-site operation via the graphic display and the four push buttons make it possible to show all of the functions on the display, which, for all other AS-Interface masters, are covered by the software AS-Interface control tools.

PLC Functionality

For PLC functionality the VBM-CTR-K20-R2 provides 16 kB program memory, 8 kB data memory, 1024 counters and 1024 timers. This is sufficient capacity to process all data arriving at the AS-Interface. The master can, therefore, also be operated as "stand-alone". The programm processing for 1000 word commands is approx. 2 ms. The programming language is based on STEP5. In the extended mode the AS-Interface CTRL functions (upload, download, start, stop, read and write marker) can be utilized.

Dimensions

Technical Data

General specifications

AS-Interface specification	V3.0
PLC-Functionality	integrated
Earth fault detection	EFD integrated
EMC monitoring	integrated
Diagnostics function	Extended function via display

Release date: 2021-09-27 Date of issue: 2021-09-27 Filename: 195379_eng.pdf

Technical Data

UL File Number	E223772 only from low voltage, limited energy source (SELV or PELV) or listed Class 2 source	
Functional safety related parameters		
MTTF _d	180 a at 30 °C	
Indicators/operating means		
Display	Illuminated graphical LC display for addressing and error messages	
LED RS 232	interface in operation; LED green	
LED AS-i ACTIVE	AS-Interface operation normal; LED green	
LED CONFIG ERR	configuration error; LED red	
LED PRG ENABLE	autom. programming; LED green	
LED POWER	voltage ON; LED green	
LED PRJ MODE	projecting mode active; LED yellow	
LED U AS-i	AS-Interface voltage; LED green	
Switch SET	Selection and setting of a slave address	
OK button	Mode selection traditional-graphical/confirmation	
Button MODE	Mode selection PRJ-operation/save configuration/cursor	
ESC button	Mode selection traditional-graphical/cancel	
Electrical specifications		
Insulation voltage	U _i	≥ 500 V
Rated operating voltage	U _e	from AS-Interface
Rated operating current	I _e	≤ 150 mA
Interface		
Interface type	RS 232	
Transfer rate	1200, 2400, 4800, 9600, 19200, 28800, 38400, 57600 or 11500 Bit/s , Automatic baud rate detection	
Cable length	max. 30 m	
Connection		
AS-Interface	spring terminals, removable	
Serial interfaces	9-pin Sub-D socket	
Directive conformity		
Electromagnetic compatibility		
Directive 2014/30/EU	EN 62026-2:2013	
Standard conformity		
Electromagnetic compatibility	EN 61326	
Degree of protection	EN 60529:2000	
AS-Interface	EN 62026-2:2013	
Approvals and certificates		
UL approval	An isolated source with a secondary open circuit voltage of ≤ 30 V _{DC} with a 3 A maximum over current protection. Over current protection is not required when a Class 2 source is employed. UL mark does not provide UL certification for any functional safety rating or aspects of the device.	
Ambient conditions		
Ambient temperature	0 ... 55 °C (32 ... 131 °F)	
Storage temperature	-15 ... 75 °C (5 ... 167 °F)	
Mechanical specifications		
Degree of protection	IP20	
Mass	460 g	
Construction type	Low profile housing , Stainless steel	

Release date: 2021-09-27 Date of issue: 2021-09-27 Filename: 195379_eng.pdf

Connection

At the cable for power supply no slaves or repeaters may be attached.
 At the cable for AS-Interface circuit no power supplies or further masters may be attached.

Assembly

Connection

In an AS-Interface network only one device can be operated earth fault detection. If there are many devices in an AS-Interface network, this can lead to the earth fault monitoring response threshold becoming less sensitive.

Accessories

	<p>VAZ-SW-ACT32</p>	<p>Full version of the AS-I Control Tools including connection cable</p>
	<p>USB-0,8M-PVC ABG-SUBD9</p>	<p>Interface converter USB/RS 232</p>

Commissioning

The AS-i Control Tools software is supplied as restricted version together with the documentation. The software performs addressing, programming and monitoring of the AS-Interface network. In addition, it contains an editor that creates programs for the integrated PLC functionality. The full version of the AS-i Control Tool is available as an accessory and features an expanded diagnostics monitor as well as a larger program memory for AS-Interface Control which makes it possible to detect faulty telegrams of slaves.
